PROFESSIONAL SUMMARY

Software engineer with **6+ years of experience** building efficient, maintainable systems that help teams ship features with confidence. Expertise in **Java, Spring Boot, and distributed systems including Kafka and message queues**. Proven track record of improving system performance, implementing resilience patterns, and delivering scalable cloud-based solutions.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Frameworks: Spring Boot, Spring Data, Hibernate, Resilience4j, JUnit, Mockito, React, Cucumber

Databases & Messaging system: Postgres, MySQL, Redis, Prometheus, Apache Kafka, ActiveMQ, JMS

Other Tools: Git, Claude Code, Grafana, Docker, Maven, JIRA, GitHub Actions, IntelliJ

EXPERIENCE

8x8 International, Inc.

Ottawa, ON

Software Engineer I & II

July 2022 – March 2026

- Architected compliance Audit Service handling 1,000 RPS; boosted read performance 3x+ by migrating from MySQL to partitioned PostgreSQL.
- Migrated event streaming from ActiveMQ to Kafka, engineering database fallback mechanisms and Resilience4j circuit breakers to prevent data loss.
- Optimized large data exports by implementing scroll-based pagination, eliminating expensive COUNT queries on public endpoints.
- Enhanced observability across 7 services using Grafana and maintained high system reliability through unit testing, integration testing and also contributing to Cucumber based automated testing.
- Drove cross-team consistency by standardizing audit specifications, authoring design docs, and presenting architectural solutions to stakeholders.
- **Technologies:** - *Java, Spring boot, Spring Data, Hibernate, Python, React.js, Postgres, MySQL, Redis, ActiveMQ, Apache Kafka, Grafana, REST APIs, Junit, Mockito, Testcontainers, Cucumber, GitHub Actions, Claude Code.*

Fuze Inc.(acquired by 8x8)

Halifax, NS

Associate Software Engineer

May 2021 - Jun 2022

- Participated in coding activities, maintaining integrity of program logic and coding and developing and updating existing Java based backend systems.
- Working on root cause analysis on production issues, increased unit test and integration tests coverage.
- Improved REST endpoint performance (analyzing SQL performance.)
- **Technologies:** - *Java, Spring boot, Hibernate, Postgres, ActiveMQ, Splunk, Junit, Mockito, Testcontainers.*

Proposify Inc.

Halifax, NS

Software Quality Assurance Analyst

Sep. 2020 – Apr 2021

- Responsible for handling *Bug Triage Process*. Writing manual Test Scenarios, Test Plans on TM4J.
- Developing an automation test suite for UI testing utilizing Groovy.
- Recognized as *Employee of the Quarter*.

ITS Planners & Engineers Inc.

Hyderabad, India

Software Developer Intern

Jan 2018 – July 2018

- Implemented the Red Light Violation Detection System, a tool designed to capture and transmit evidence of violations at traffic signals.
- Gathered project requirements and specifications and conducted project demonstrations.
- Integrated hardware and software components at client sites and deployed services on client's cloud hosted server.
- **Technologies:** *Java, Servlets, PostgreSQL, Log4J, Junit, JQuery, Git and FFMPEG Library.*

EDUCATION

Dalhousie University

Halifax, NS

Masters in Applied Computer Science

Aug. 2019 – Dec 2020

Nirma University

Ahmedabad, India

Bachelors of Information Technology

Aug. 2014 – May 2018
